RESULTS OF ASSET MANAGEMENT

The results of asset management include rental income, other revenues, operating income and operating costs as well as the expenses directly attributable to investment property. Rental income rose by 10.5%, or EUR 6.2 million, to EUR 65.2 million. After the adjustment of effects totalling EUR 3.8 million from the initial application of IFRS 16, the increase equalled EUR 2.4 million or 4.1%. The decline in rental income from the sale of properties which do not fit in with the corporate strategy was more than offset by completions and acquisitions.

Property expenses declined by 17.3% to EUR -11.3 million (Q1 2018: EUR -13.7 million). This reduction was supported primarily by a decline in fit-out costs (EUR -0.9 million versus EUR -2.2 million). The vacancy costs included in operating expenses fell by 13.3% to EUR -2.1 million.

In total, the increase in rental income and decline in property expenses led to an improvement of 11.8% in the results of asset management to EUR 50.4 million (Q1 2018: EUR 45.0 million).

RESULTS OF PROPERTY SALES AND PROPERTY DEVELOPMENT

The results of property sales amounted to EUR 1.0 million (Q1 2018: EUR 3.5 million), and the results of property development equalled EUR -4.6 million (Q1 2018: EUR 1.8 million). As previously reported, the sale of the hotel in Cologne which is leased to 25hours and other units in the *Gerling Quartier* closed during Q1 2019. Real estate inventories included EUR 450,000 from the *Gerling Quartier* as of 31 March 2019.

RESULTS OF OPERATIONS

The results of operations improved by 3.7% to EUR 36.8 million. Other operating expenses fell by 37.2% year-on-year to EUR -10.7 million (Q1 2018: EUR -17.0 million). After an adjustment for the payment of a one-time special bonus of EUR -4.0 million to the Executive Board in 2018 for the successful restructuring of the Group, the cost savings equalled EUR 2.3 million or 17.8%.

REVALUATION

Results from the revaluation of investment property and goodwill turned positive and equalled EUR 7.1 million (Q1 2018: EUR -3.8 million). This change was supported, above all, by the revaluation of the *Na Prikope* property in the inner city of Prague. IMMOFINANZ acquired a 50% interest in this revitalised office project during Q1 2019 and is now its sole owner.

FINANCIAL RESULTS AND TAXES

Financing costs declined by 8.9% to EUR -14.9 million, among others due to a reduction in the Group's expenses for financing (31 March 2019: 1.94% p.a. including derivatives). Other financial results equalled EUR -7.9 million and were lower than the previous year (Q1 2018: EUR 1.2 million), in particular due to the valuation of derivatives.

The share of profit/loss from equity-accounted investments amounted to EUR 4.9 million (Q1 2018: EUR 8.9 million), whereby EUR 4.5 million are attributable to the proportional share of S IMMO earnings. Financial results for Q1 2019 totalled EUR -18.4 million (Q1 2018: EUR -4.5 million).

NET PROFIT

Net profit from continuing operations increased substantially to EUR 25.6 million (Q1 2018: EUR 4.3 million). The results of discontinued operations were influenced, above all, by tax reimbursements from Russia and equalled EUR 4.9 million (Q1 2018: EUR -3.4 million). As reported in connection with the sale of the Russian portfolio to the FORT Group at the end of 2017, IMMOFINANZ can participate in a positive outcome of ongoing proceedings for the reimbursement of withholding and property taxes.

IMMOFINANZ recorded a significant improvement in net profit to EUR 30.4 million in Q1 2019 (Q1 2018: EUR 1.0 million). Basic earnings per share equalled EUR 0.28 (Q1 2018: EUR 0.02) and diluted earnings per share EUR 0.25 (Q1 2018: EUR 0.02).

FUNDS FROM OPERATIONS (FFO)

The development of sustainable funds from operations, an important profitability indicator for the real estate branch, underscores IMMOFINANZ's stronger earning power. FFO 1 (before tax) from the standing investment business rose by 35.0% to EUR 28.1 million during the reporting period (Q1 2018: EUR 20.8 million), which represents FFO 1 per share of EUR 0.26 (Q1 2018: EUR 0.19). After the inclusion of future interest payments for the corporate bond 2023 which was issued in January 2019 (coupon: 2.625%, first coupon payment in January 2020), FFO 1 adjusted over the quarters for this effect equals EUR 25.8 million (plus 24.2%) or FFO 1 per share of EUR 0.24 (Q1 2018: EUR 0.19). This FFO 1 does not include the economic interest in S IMMO.

STANDING INVESTMENTS

The 153 standing investments had a carrying amount of EUR 3,771.9 million as of 31 March 2019 (31 December 2018: 157 standing investments and EUR 3,719.1 million). Of this total, 60.9% were attributable to office properties and 38.9% to retail properties. The focal point of the standing investments based on the carrying amount are the markets in Poland (EUR 716.7 million), Austria (EUR 681.7 million) and Romania (EUR 634.9 million).

Standing investments are the most important source of earnings

These properties have 1,860,913 sqm of rentable space (31 December 2018: 1,891,627 sqm). Based on annualised rental income (Q1 2019: EUR 61.8 million), the portfolio had a gross return of 6.6% and a return of 6.9% based on invoiced rents. The difference is explained by the accrual of rental incentives – e.g. the standard market practice of granting rent-free periods or allowances for fit-out costs – which must be accrued on a straight-line basis over the contract term in accordance with IFRS (basis for gross return under IFRS), but are not included in the invoiced rent.

The occupancy rate equalled 94.9% as of 31 March 2019 (31 March 2018: 94.2%; 31 December 2018: 95.8%). The calculation formula defined by the EPRA results in a vacancy rate of 5.4%, which represents an EPRA occupancy rate of 94.6%. The EPRA vacancy rate is based on the ratio of the estimated market rent

Standing investment portfolio: occupancy rate of 94.9%

A like-for-like analysis (i.e. acquisitions, completions and sales are deducted to facilitate comparison with the first quarter of 2018) shows that rental income remained stable at EUR 52.9 million in the first quarter of 2019. The increase in the retail sector equalled 1.2%, while the rental income from office properties declined by a slight 0.7% primarily due to temporary vacancies which resulted from tenant turnover in a number of office buildings.

SUPPLEMENTARY INFORMATION

1. Basis of Preparation

The consolidated interim financial statements of IMMOFINANZ as of 31 March 2019 were prepared for the period from 1 January 2019 to 31 March 2019 (Q1 2019).

The scope of quarterly reporting was reduced beginning with the first quarter of 2019 based on a change in the rules issued by the Vienna Stock Exchange for the Prime Market. Consequently, IMMOFINANZ's consolidated interim financial report does not represent a report prepared in accordance with IAS 34. Information on the applied IFRS, significant accounting policies and further information and disclosures can be found in IMMOFINANZ's consolidated financial statements as of 31 December 2018, which forms the basis for this consolidated interim financial report.

The consolidated interim financial report is presented in thousand Euros ("TEUR", rounded). The use of automatic data processing equipment can lead to rounding differences in the addition of rounded amounts or percentage rates.

FIRST-TIME APPLICATIONS OF STANDARDS AND INTERPRETATIONS

IFRS 16: Leases

IFRS 16 replaced the existing rules for the accounting treatment of leases (IAS 17) as of 1 January 2019. This new standard introduced extensive changes to lease accounting for the lessee, while the rules for lessors remained largely unchanged. The changeover was based on the modified retrospective approach.

The application of the new standard led to the recognition of the following rights of use as of 31 March 2019: EUR 56.4 million for investment property, EUR 13.2 million for property under construction and EUR 1.1 million for tangible assets. The related current lease liabilities equal EUR 0.9 million, and non-current lease liabilities amount to EUR 69.8 million.

In addition, rights of use totalling EUR 1.3 million and an equal amount of lease liabilities were reclassified to assets, respectively liabilities held for sale. Scheduled depreciation of EUR 0.1 million and revaluations of EUR 1.3 million were recognised in connection with the capitalised rights of use. The interest expense for the lease liabilities amounted to EUR 0.6 million and was calculated according to the effective interest method.

The initial application of IFRS 16 also resulted in reclassifications of EUR 3.8 million to rental income. The reclassifications were made within the results of asset management and, consequently, had no effect on the Group's net profit or the calculation of FFO.

2. Development of the Scope of Consolidation

The following table shows the development of the scope of consolidation in Q1 2019:
